Shimpo Student Scholar, NCECA, Ft. Worth, TX

## workshops & lectures

- 2006 Union Project Ceramics Workshop series presenter  
Weekend workshop covering various aspects of slip casting and mold making. Topics included: deflocculating clay bodies, casting, and multi-piece mold making
- 2005 The Friday Zone, PBS childrens show  
Guest potter: basic throwing demonstration on the PBS childrens show, 'The Friday Zone'.
- 2004 The Art of Mold Making, lecture and demonstration  
The Heath Ceramics Company (Sausalito, CA) puts on a yearly series of workshops on various topics involving clay. I was asked to present a one day seminar on the topic of slip casting and mold making. For this, I demonstrated and lectured about the method I use to make multiple piece molds.
- 2000 Maple Scholars: undergraduate research grant and symposium  
As an undergraduate at Goshen College I recieved a research grant to research, design, and construct a soda vapor kiln. Working with Professor Marvin Bartel as my faculty advisor, I developed and tested a new Kyanite based castable materials, designed and built the kiln, fabricated the forced air burner system, and wired the kiln with the appropriate safety features. I presented my research entitled, 'Corrosion resistant castables and their employment in kiln construction' at the college's research symposium.

- 2003 *GC art exhibit celebrates 'Ceramic Legacy'*. The Goshen News, Sept. 17, 2003

## **international experience**

- 2000 Study/Service Term, Sichuan Teachers College, Chengdu, PRC  
Resided for 4 months on campus at Sichuan Teachers College in the capital of Sichuan Province, Chengdu, PRC. During this time I taught college level English and studied traditional Chinese wood block printing, language, and history. Also traveled to Jingdezhen and Taiwan.
- 1997 Traveling Assistant to Dr. David Denlinger - Nairobi, Kenya  
Dr. Denlinger is a Professor of Entomology at Ohio State University and member of The National Academy of Science. In the summer of 1997 I was able to travel with Dr. Denlinger to Nairobi, Kenya and the surrounding region while he researched the tsetse fly and its ability to transmit sleeping sickness.

In addition to these specific experiences I have also traveled throughout Europe, Mexico and The Dominican Republic.

## **university service**

- BFA committee, Chair
- Barstow Artist in Residency committee
- Curriculum committee
- Grade Grievance committee

## **continuing education**

- 2006 Mechanical Engineering Processes  
Enrollment in advanced manufacturing processes course at SUNY-Canton. Course focused on machine shop skills including Haas CNC lathe and mill, Bridgeport manual vertical and horizontal milling machine, use of gage blocks, sine bars, speed feed calculator and other precision layout tools.
